I was was born October 10th, 1980 Bryan Jeffrey Erwin in Ft Huachuca, Arizona. I have loved music all my life. On April 15th, 1999 going to my first concert, I was ejected from a vehicle on I-10 at 75mph. To make a long story short, I was resuscitated several times at the scene, on life flight and in ER. I was left in a paralytic coma on life support and my parents were told on the second day that there was nothing that could be done for me because I was stricken with ARDS (Acute Respiratory Distress Syndrome) which caused my lungs to pop a total of 11 times. The end result, because of all the medication that was used to save my life, I went completely deaf. I now wear a Cochlear Ear Implant which because of technology, allows me the opportunity to hear again. I do not hear the way that other people do but I am able to hear my music, which until I had the surgery I was only able to feel the vibrations from a speaker. I was into gangs and drugs when I was younger just like a lot of other kids these days. I believe God kept me alive for a reason, and I feel that was to spread his word through my music in a language and beats that kids will relate to and understand.
