uenced by Blind Arvella Grey and his style of expressive metallic guitar. In a style in rapidly opened to other influences. And you can feel it in his forth CD. As time went stuments and also, developed a clean musical personality. Helping him to develop a trombone, mandolin, and violin). Nice technique on this CD. Very familiar with everend Gary Davis, Memphis Jug Band, Robert Johnson...),
with less notable players (Gregg Allman, Percy Mayfield, Hank Williams, Jr...). We hope in the future to see those musicians playing with him on his next visit to Europe.
