Women have always played an integral role in American popular music, especially in blues and jazz. Known as the home of the blues and the birthplace of rock n roll, Memphis has been fertile soil for the growth of American popular music. Memphis BellesPast, Present & Future is a comprehensive sampler that includes some of the most widely respected female artists associated with Memphis. It encompasses practically every style of music from classical to alternative rock. The 12-page booklet includes descriptions and photos of each of the twenty artists. Hardly anything or anybody is left out of this effort from Inside Sounds, a Memphis-based label founded in 1992. It is a CD intentionally inclusive and a celebration of talent, from twenty-something year old aspiring stars to artists who have graced the planet since before television was invented.
