Cottonmouth Jones fired up its pistons for the first time in the summer of 2006. Originally starting out as a song writing vehicle, it soon became obvious that we had to take this baby for a ride, Otis! A ton o' gigs later we're still kickin' ass and takin' names y'all! We're a lean, mean rock n' roll machine and we're headin' your way baby, so put th' beers in th' fridge and th' kids to bed it's JONES time!

available at itunes, amazon.com, emusic, napster, rhapsody and spotify
