DANA FUCHS LOVE LIVES ON

The album was recorded in Memphis. Dana says "It's a new beginning for me in every way, as I have started my own label and left New York to go to the root of the music that inspired me to follow my passion. The Southern soul of Stax/Volt, Hi records and Sun Studio. From Otis Redding to Al Green to Johnny Cash. All huge influences."

"The beauty of this album is that Dana Fuchs really knows how to handle the Memphis Soul." - Blues Magazine
