Illusions Fate, Chicago's most dynamic Alt/Metal triad, packs some of Chicagoland's top venues such as The Double Door and The Pearl Room, and opening for top national acts such as Mushroomhead, Michale Graves, Egypt Central, Genuflect, Stonerider, and others.

The band has captivated and stolen audiences by notoriously having one of the most aggressive and passionate live performances Chicago's Rock or Metal scene has ever seen.

Illusions Fate draws its inspiration from some of the most influential Industrial, Alternative, Rock and Metal acts of the past and present, anywhere from Black Sabbath to Marilyn Manson, Lamb of God to Alice in Chains, and many more of the like.

The song writing is inspired by a spectrum of darkness, discomfort and rage. From love/hate relationships to S&M fantasies, systematic world corruption and childhood confusion. These deepest darkest human emotions are therapeutically released through the music which the band creates.

The debut album from Illusions Fate, entitled *The Ghost of Maya*, has received heavy radio play on hundreds of college FM and Rock FM stations across the United States and will continue to flourish as the band embarks on their wave of national tour dates in late 2012-2013.
