*Finding a balance between the visceral and intellectual is one of the trickiest things to pull off in music, but Lisa Bianco manages to do just that. Her songs, evocative and inventive, straddle the line between punk rock passion and singer songwriter introspection to create something uniquely her own. On her new album, POSTDATA, Lisa Bianco takes on the new and constantly evolving relationship between people and a data-saturated world, searching for the personal connection that breathes life into humanity--and music.*
