Critics and peers agree, Slowburn has distinguished themselves as one of the premier Americana bands in Sweden. With the perfect balance of sophisticated songwriting and energetic live performances, Slowburn fills clubs nationwide with fervent fans that span generations.

Slowburn is a four piece band from Gothenburg Sweden. The band was formed around new years 2006. The three founding members Joakim Ramstedt, Tommy Johansson and Patrik Andersson met through an advert on a webpage. The fourth member Mattias Olofsson on guitar was found through another web advert a couple of months later. The band released it's first album 'Devil in my blood' later that year. All the songs except two were originals.

The album sold out and the band was invited to a few radioshow in Sweden. This attention led to a label deal with a small indie blueslabel called Last Buzz Record co. So the next Album 'Bring it on' was released 2008 under this label

Mårten Olsson is now handling the leadguitar He is the third guitarist in the band. On the second album Kalle Ruuth was playing lead guitar.

The band has played live both on the swedish national radio and a number of privately owned stations, and are currently playing clubs and festivals in Sweden.

Slowburn is a band that mixes Country, Blues and Rock into a pleasurable mix. The music is influated by american artists such as: Steve Earle, Little Feat, Buddy Miller among others but the sound is their own. The members of Slowburn are in their forties and have all played extensively in other bands before. A whim to answer an internet ad formed this band. Some call it luck, others call it faith.
