OneWayHome, a Christian Rock band out of Houston, touring around the nation spreading the Word of God. They tour with their own professional sound system along with lighting. They present the gospel with every performance they give and are great with retreats and camps as well. Each band member has a strong desire to see people come to know Jesus Christ. Through this they reach out before, during, and after all events to prayerfully reach the people God has put in their path.

There are many things that could be said OWH, but to keep it short and sweet, once you have had them come in, you will understand the true passion they have for the cross.

Of course, they will put on a spectacular performance. They travel with a massive sound system capable of handling around 2,000 people along with LED lighting!
