Introducing Nathaniel Charles Jones Jr., AKA Showty, to his people. A Hip Hop force to be reckoned with... period. Listen and you will see. Since an early age, "Showty" has had a love affair with music. More than a rapper, Showty is a wordsmith of the highest degree. It is instinctive for him to toy with metaphors and the rhythm of a statement until it is received by ears that appreciate his timeless thought filled process of communicating and cating conveying messages. Specializing in Hip Hop is one of his specialties. This talented artist writes his own music from verse to hooks and hand selects the artists that he showcases alongside him. An internal universal respect of all forms of art allows Showty to create whatever the mood moves him to. He is not in the box. He sits on top and watches and records and what presents after deeds are seeds he plants. His music carries its listener outside of themselves. For those minutes they groove with Showty's nature. It's a trip worth taking and proves to be a time well spent. Showty is his name. It won't be hard to remember.
