Wendell Tackett was born and raised in West Virginia. Coming from a family of little means, Wendell inherited his musical talent and song writing from his great grandparents. Having been in the ministry for 27 years, Wendell had never pursued his music ability until he began having serious medical issues and was forced to slow down because of his health. His first album was called "Totally New Gospel Songs" and his new album, "I Was the One" are some of his proudest accomplishments. Wendell enjoys writing songs but never considered himself a singer. He compares the gift of singing to the gift of carpentry, best left to those who know what they're doing. His greatest desire is that these songs will be blessed and will give honor and glory to God.
